| 12:25pm – 12:30pm | Parent Question and Discussion 1 | <ul style="list-style-type: none"> I care deeply about my twins having opportunities to participate in engaging STEM programs outside of school, but have to drive to Maryland for a high-quality program (Metro Warriors STEM Organization). I care deeply about STEM education, and I know many parents care deeply about using Out of School Time for other enrichment opportunities—arts, music, sports, etc. Now that you have the Office of Out of School Time and Youth Outcomes directly under your purview, how will you push the Mayor to increase funding to a meaningful level—\$25 million—so that families have access to a range of affordable and high-quality Out of School Time programs in DC? | Yvette Selby, Capital City PCS Middle Parent (Ward 5) |
| 12:30pm – 12:35pm | Parent Question and Discussion 2 | <ul style="list-style-type: none"> As a member of the ESSA Task Force, I am constantly exposed to the data not only on our city, but on Ward 7. I also see how the data for black boys shows that they are consistently underperforming and under-resourced. I am a mother of 3 black boys, and I am terrified of what this means for my kids. How do you interpret the data on education in our city, and what is your plan for making sure all children have the resources they need to succeed? | Yolanda Corbett, Inspired Teaching School and Children's Guild Parent (Ward 7) |
